Construction of Booster Pump Station

SCOPE SYNOPSIS

The contractor shall supply, install and commission a small package type inline booster pump station at Madinat Sultan Qaboos along with the main express way at the side of the service road (Al Inshirah Street) at a location opposite to Sarooj shell petroleum station. The booster set shall be a package unit with all related fittings, pipes and valves as a complete pressure boosting system in addition to the pipe work. The bidder must price all items in the Schedule of Price.
