

OMAN WATER & WASTEWATER SERVICES COMPANY
CORPORATE MANAGEMENT SYSTEM

Scope of Work

Project Name: CONSULTANCY SERVICES FOR DESIGN & CONSTRUCTION SUPERVISION OF REINFORCEMENT OF SUR TRANSMISSION SYSTEM

Tender number: Tender No. 2460858/2023

SUMMARY OF SCOPE FOR WORK:

The existing DI line which feeding Sur city reservoirs is supplying Wilayat Sur, which cannot cover the required demand in 2023, and preventing networks extension in many areas in the Wilayat like Al Aigah and Ahiae. A new pipeline is required to cover the water demand till the proposed project horizon 2045 which will increase the resilience in wilayat Sur by constructing the new line far from the sea and providing the required protection for the new line.

This brief description and scope of work is intended to give a broad outline on the services to be provided by the Consultant and **does not cover all aspects in detail**. The offer for consultancy services should be complete in all aspects and the Consultant shall provide all services necessary to complete the entire project whether or not these are explicitly mentioned in this documents

The scope of the project is divided into the followings:

- 1- Prepare preliminary design, detailed design,
- 2- Prepare construction tender documents, Analysis of Construction Bids, assist in the award of Contract.
- 3- Supervise and manage the construction of all works during the Contract periods.
