

Tender No. T/2460836/2023

Frame Agreement for Provision of Design and Supervision Consultancy Services for Extension of Water Distribution Networks for All Oman except Dohfar Region

SUMMARY OF SCOPE FOR WORK:

Design, Supervise and manage the construction of all works during the Contract periods and following staff to be deployed by the Consulting Engineer.

NAMA WATER SERVICES intends to assign Frame-Work construction Contractor to construct small water distribution networks at all Oman except Dhofar Region. These small networks include extensions of existing networks, pocket areas of networks extension, TFS.

NAMA WATER SERVICES therefore wishes to engage services of a Frame-Work Consultant to design and supervise the above-mentioned scope of work for the frame-work construction contractor. The design work will include all associated civil, mechanical, electrical, instrumentation and control work as may be necessary. The designs shall be in detailed format including BOQ, Particular Specifications, Drawings and details for pricing by the frame-work construction contractor.
