

**OMAN WATER & WASTEWATER SERVICES COMPANY
CORPORATE MANAGEMENT SYSTEM**

Scope of Work

T-2517935-2023

**CONSULTANCY SERVICES FOR DESIGN OF WATER DISTRIBUTION NETWORKS
TO LIWA AND SHINAS WILAYAT**

Liwa and Shinas willayats located in Al Batinah North Governorate. According to 2010 census the total population of Wilayats were 34,001, 52132 capita respectively. The Wilayats are partially covered by water supply distribution network. The existing water networks coverage around 40% of the Liwa wilayat and 54 % of the Shinas willayat.

OWWSC decided to extend the water supply network to new developed areas which are not yet covered. OWWSC strategy is to enhance the quantity and quality of the water service for the benefited areas and ensures a continuous water supply by providing new networks and rehabilitation of the existing networks.

OWWSC therefore wishes to engage the services of a Consultancy Firm with relevant experience in similar projects especially in Oman who also have established offices in Muscat with design capabilities to carry out the work. OWWSC invites such Consultancy Firms to submit their complete and comprehensive Tender proposals for providing Consultancy Services for the proposed works.

Project Area

The project will cover two Wilayats in Al Batinah North Governorate:

- 1- Liwa,
- 2- Shinas.

The scope of the consultancy services required shall include but are not limited to:

- 1- **Prepare preliminary design, detailed design,**
- 2- **Prepare construction tender documents, Analysis of Construction Bids, assist in the award of Contract.**
