

T/2459835/2023

Nama Water Services Company sewer network is expanding, and this requires an increase in the number of JET/VAC units to cover all sewer lines by cleaning/flushing and opening of blockages.

The present requirement is:

- Supply, commissioning, and training of three for 16,000 liters jet/ vacuum unit with specified hose and accessories
- Three years maintenance for Three for 16,000 liters jet/Vac unit including spare parts.
